September 2013

Greetings in the wonderful name of our Lord and Saviour Jesus Christ.

We are excited that students are back on campus so that we can reach them once again. New students have come for their first year and previous students returned. It is always great to get an opportunity to proclaim the Gospel of our Lord and Saviour Jesus Christ to new and familiar faces.

Before I share what has been happening on campuses please allow me to express my health concerns. My health once again had gotten very ill. I couldn't hardly walk with the pain from the lumps on my feet. Terrible pain was also in my joints in other places as well. The fevers and night sweats returned. If I didn't eat I felt okay. But you just can't go too long without eating so I went back on prednisone. Please pray for my health because I am rather at a loss as what to do. The diet I was on worked for almost a year

but it stopped working for whatever reason. The medication I am taking is very harmful but without it I'm not able to even function. I'll be very grateful for any prayer and fasting anyone does for me.

Here are some of the

highlights. At Plattsburgh University I was able to witness to a student name Lazarus. What evangelist can forget that name? Lazarus said he was a good person and so I went over the Commandments with him to see whether he had kept them. Once we got to blasphemy though, Lazarus became very uncomfortable and this was the end of our conversation. He slowly shuffled his way out of our discussion. Sometime later Lazarus came back, but not from the dead. He then told me he wanted me to delete our chat from my video camera. He began to say that it was illegal for me to have the video. I assured him that this was not the case at all and that it was perfectly lawful but if he want me to delete it I would do it out of an action of kindness, restating that I was under no obligation to do so. I let him

watch it being deleted and then used it as an illustration. I told Lazarus this is what God can do to his sin if he was willing to repent and

trust in God's gift of eternal life. "God will delete all your sin never to be found again but you need to trust in Christ.", I told him. I would say that Lazarus was under great conviction so please pray that he believes on the Lord Jesus Christ.

We spent three days ministering at the University of Vermont Founded in 1791.

On the first day the boys gave out over a thousand tracts. On our second day just before heading there however Josiah ran into a door and gashed open his forehead above his right eye. Thankfully the hospital was just up the road. Guess where? At the campus. He received six stitches. The boys got to witness with their Bible verses to the

doctor and nurse. Amen, the Lord knows. We then left just in time for the lunch crowd at UVM. After a P.B&J, Josiah was up to passing out gospel tracts, quoting Bible verses and singing hymns. It wasn't long before many of the students crowded around and started taking pictures and videos with their cell phones.

Here's a link for you to watch.

We went to three PRIVATE campuses. The first was Paul Smith's College. This private

campus is nestled in the middle of the Adirondack's. It is the only four-year College within the Adirondack State Park. There are lots of students there and maybe no one is traveling to reach this lost corner of the world due to its isolation. I thank our Lord Jesus because this is not a public campus and yet we were able to pass out hundreds of tracts without being asked to leave. We

even had teachers taking tracts from us. Amen! The

Second was Saint Michael's College in VT. This is a large Catholic campus. I could not believe how we got by passing out the several hundreds of tracts that we did. The students were very friendly and we had no problems. Wow! Check out this video of the boys tracting.

<http://youtu.be/GxB9WooSQ0k>

The third one was Champlain College founded in 1878. We also gave out several hundreds of tracts here. We did get approached by two students who told me this was a private college. I thanked them but we were on our way out and no one was running back to return their tracts to us. Praise God! *Matthew 10:16 Behold, I send you forth as sheep in the midst of wolves: be ye therefore wise as serpents, and harmless as doves.*

It was great to have Josiah our 2 year old go with us to Syracuse University and

Onondaga

Community

College. Above is a picture of him handing out a tract. Everyone wants to take a tract from him. His biggest problem is that his brothers are fast and usually beat him to the draw. Josiah and Joseph literally race when they pass out gospel tracts. As we were leaving OCCC there was a student who had just got done reading my testimony tract and slipped it into his back pocket. I approached him and said, "That was me 18 years ago." He got up and smiled and said he was touched by the tract and that someone else had given him a tract a few months ago. Well at the end of our conversation, Dimo (In picture below with me) knelt down on his knees and asked Christ to forgive and save him. Later that day he

texted me thanking me again. We have spoken a few times since then and I put him in touch with a local Church.

We visited North Country Community College in Malone NY. It is hard to imagine that there are 8,000 students there. The place is an old wool factory that closed down. It is ironic that we were looking for lost sheep here.

In Christ Jesus,
The Greg S. Davis Family
