

The Davis Family

Evangelizing Belize, CA

August 2016

Hurricane Earl:

We survived Hurricane Earl and are thankful to the Lord that there were no deaths at all in the country of Belize! Before the storm I went around warning everyone from our church plant to go to the

designated shelters. The picture on the top right shows the rebuilding of a house from a family of 12. During the storm their house was completely destroyed as seen in this picture. They really had a tough time and it was a blessing to help them get back on their feet.

Meeting Place:

The place we meet was also affected by the storm. The roof was mostly taken away. Our apartment is

newly constructed and we are on the second story so we stayed there. The biggest problem was having to mop the floor for five hours straight. The blowing rain was coming in all the windows and flooding the floor. Praise the Lord it is all over!

LGBT:

In my last letter I wrote, *"Sadly the US Embassy raised the LGBT flag here in Belize. Please pray as their agenda is being pushed on this country."* Now there is even more reason to pray. Here is an excerpt from a recent email I received, *"The Chief Justice ruled in favor of Orozco and UNIBAM in the sodomy lawsuit on Aug. 10th. Analyzing the ruling with Senior Counsel attorneys, please understand that the Chief Justice gave them a "blank check green light" on all LGBT rights! You mean SAME SEX MARRIAGE? ALL LGBT RIGHTS!!"* Sadly, the Government of Belize is not going to appeal this decision. This is just another example of where one judge rules against the laws of God and the will of the people. The vast majority of Belizeians do not want this. Please join us in prayer as on this coming Tuesday August 23rd at, 9 am we will be gathering at the National Assembly Building in the Capital of Belize to pray and stand against this injustice.

Special Forces Unit:

So far there have been 35 officers that made a profession of faith in Christ Jesus this last month alone. I have just been giving the simple Gospel of salvation by grace and they respond. We know that it is the power God unto salvation. I will be setting up times to have baptism classes. Then I plan to hold public baptism in a river. I asked about setting up times for discipleship classes also. The head inspector told me he is in favor of this and will support me. Please continue to pray for these new Christians officers and for the continued harvest. If anyone is able to donate police equipment please let me know. The city is in need of surveillance cameras, vehicles, decibel meters to name a few. So if your municipality and businesses are upgrading equipment ask them if they will donate them to a city in this third world country.

Thanks for all who give to His cause! Send support now by [clicking this link](#) or send your tax deductible gift to: Evangelism Missions, Lobeco, SC 29931.
