

The Davis Family Evangelizing Belize, CA

September 2016

Some Victory LGBT:

It was a blessing to be directly involved in the stance against the LGBT law that passed here in Belize. There were a thousand Christians that took off the day from work and joined together at the National Assembly building in Belmopan. The children and I brought and then distributed a thousand free waters for the Christian crowd. Of

This was just a small lesson for my children that we should spend and be spent for the Church. We had our signs displayed at both the Tuesday and Friday events. On both days we made it on the national news stations. [Click this link to watch](#). Partly due to this, the Government changed their stance and is now appealing the ruling that changed sex to

course when you are doing something for the Lord there is usually a test. To help the warehouse we drove inside to load load the water. While backing out, our rearview mirror broke. I calmly told my children, "It is worth it to be able to serve Christ!"

mean, sexual orientation. The christian organizations has appealed the rest. We have been praying and fasting and speaking out. Please join us in doing the same to fight these last days attacks. The Lord Jesus Christ IS the victory!!!

Police Academy:

More officers have come to Christ at the police academy! I preach there every Monday morning as well as the police station. The picture on the right is me along with officer, Franz Vernon. Franz told me afterwards that he trusted Christ and wanted to come my church. Not all the police live in Belmopan but he does. In fact, he lives close to us. I was able to give him a John & Romans Bible to read while he is deployed. We will be meeting for discipleship this week when he returns. Praise the Lord!

Property:

Please continue to pray for our desire to find affordable land here. This is very difficult. We had found a beautiful 1/2 lot at a prime location for, \$25,000 (US). However, when the owner heard it was for an American they raised it to, \$70,000 (US). It is disappointing and frustrating but we will wait.

Health:

Please continue to pray for my health. I was having trouble seeing and had increased headaches. Thankfully headaches have gone away for the last two weeks while I was on a water fast. I am doing other things that I think should help and would appreciate your prayers.

Church:

We were moved for a few weeks while the building we met in was unavailable. So we met at a church family's house. The picture on right shows where we gathered. It was very tight but we made do and they were very honored that we met there. Next Sunday we will be back at our normal location.

Thanks for all who give to His cause! Send support now by [clicking this link](#) or send your tax deductible gift to: Evangelism Missions, Lobeco, SC 29931.
