Transmission \$ Help Needed!:

We NEED your help. The day we picked up our van after the new engine was installed I noticed it would shutter when going in reverse. After being without a vehicle for over a quarter of the year, I was just happy to have transportation again. Well, back in April it stopped working. I can go forward but not reverse. There's definitely a good analogy here. As Christians we are never to turn around. We are supposed to keep going forward! There's a hymn we sing from time to time which says, *I'm too far from where I started and too close to where I'm going, there's no use in turning around. Amen!* I couldn't find anything in Belize so I will have one shipped here from the states. It is now rainy season and we won't be able to push this backwards any longer. A brother in Christ found one for, \$650.00. Please consider helping with this need. I will need to pay to have it installed so if you can help here's the link: [click this link](#). PS. To rebuild would be about 3 times the price.

Mothers Day:

It is not a big holiday here in Belize but I still push it. I have even gotten flack but too bad. The children always enjoy making something for their mothers and I get such a joy out of seeing them smile. Most moms are the backbone of the family and it is no different here in Belize. I hope one day it will catch on here. The majority of the mothers of the children in our church wash there clothes in the stream, do not have electric, house water and the things American moms have to keep the home going.

Homeland Security:

I am now holding weekly prayer and bible devotions at the Ministry of Homeland Security in Belmopan, Belize. What another honor! I would ask you add this office to your prayer list.

Yours Faithfully,

The Greg Davis Family
